Dear Will

Thank you for your email of 19 February 2011 to the Environmental Protection Authority (EPA) regarding chemtrails. This letter has been forwarded to me, as the issue lies outside the responsibilities of the EPA and beyond its parameters of operation.

I note that the Ministry for the Environment has engaged in a considerable amount of discussion with you on this issue, including multiple letters, emails and phone calls. I encourage you to revisit these earlier responses as they clearly outline the Ministry's views.

As I can now only reiterate that the Ministry has no information to support your claims that the phenomena you describe are in any way sinister, I advise that we consider interaction on this issue to be closed.

Yours sincerely

for Vera Power
Manager, Science
Ministry for the Environment
